

Annual Required Public Notices

The Mad River School District is required by state and federal laws to provide notice annually regarding the following:

3122 - NONDISCRIMINATION AND EQUAL EMPLOYMENT OPPORTUNITY

The Board of Education does not discriminate on the basis of race, color, religion, national origin, sex, disability, military status, ancestry, or age in its programs and activities, including employment opportunities.

The Superintendent shall appoint a compliance officer whose responsibility it will be to ensure that Federal and State regulations are complied with and that any inquiries or complaints are dealt with promptly in accordance with law. S/He shall also ensure that proper notice of nondiscrimination for Title II, Title VI, and Title VII of the Civil Rights Act of 1964, Title IX of the Education Amendment Act of 1972, Section 504 of the Rehabilitation Act of 1973, and the Age Act is provided to staff members and the general public. Any sections of the District's collectively-bargained, negotiated agreements dealing with hiring, promotion, and tenure need to contain a statement of nondiscrimination similar to that in the Board's statement above. In addition, any gender-specific terms should be eliminated from such contracts.

PARENT PARTICIPATION IN TITLE I PROGRAMS

In accordance with the requirements of Federal law, programs supported by Title I funds must be planned and implemented in meaningful consultation with parents of the students being served.

Each year the Superintendent shall work with parents of children served in Title I Programs in order to jointly develop and agree upon a proposed written parent involvement policy to establish expectations for the involvement of such parents in the education of their children. The proposed policy shall be reviewed and approved annually by the Board of Education and distributed to parents of children receiving Title I services. The proposed policy must describe how the School District will:

- A. involve parents in the development of the School District's Title I plans and in the process of school review and improvement, if necessary;
- B. provide coordination, technical assistance, and other support necessary to assist schools in planning and implementing effective parent involvement activities to improve student achievement and school performance;
- C. build the schools' and parents' capacity for strong parental involvement;
- D. coordinate and integrate parent involvement strategies with parent involvement strategies under other programs such as Head Start, Reading First, Early Reading First, Even Start, Parents and Teachers, and Home Instruction for Preschool Youngsters;
- E. in consultation with parents, annually evaluate the content and effectiveness of the parent involvement policy in improving the academic quality of schools, including:
 - 1. identifying barriers to greater parent participation;
 - 2. designing strategies for more effective parental involvement; and,
 - 3. revising the parental involvement policy if necessary;

- F. involve parents of children receiving Title I services in deciding how Title I funds reserved for parent involvement activities will be allocated;
- G. provide full opportunities for the participation of parents with limited English proficiency, parents with disabilities and parents of migratory children, including providing information and school reports in a format, and to the extent practicable in a language, such parents can understand;
- H. conduct meetings with parents including provisions for flexible scheduling and assistance to parents to better assure their attendance at meetings;
- I. develop agendas for parent meetings to include review and explanation of the curriculum, means of assessments, and the proficiency levels students are expected to achieve and maintain;
- J. provide opportunities for parents to formulate suggestions, interact and share experiences with other parents, and participate appropriately in the decision-making about the program and revisions in the plan;
- K. involve parents in the planning, review, and improvement of the Title I program;
- L. communicate information concerning school performance profiles and their child's individual performance to parents;
- M. assist parents in helping their children in achieving the objectives of the program by such means as ensuring regular attendance, monitoring television-watching, providing adequate time and the proper environment for homework; guiding nutritional and health practices, and the like;
- N. provide timely responses to parental questions, concerns, and recommendations;
- O. coordinate and provide technical assistance and other support necessary to assist Title I schools to develop effective parent participation activities to improve academic achievement;
- P. conduct other activities as appropriate to the Title I plan and State and Federal requirements.

The Superintendent must also assure that each Title I participating school develops a specific written plan, with parental involvement and agreement, which includes provisions regarding the following:

- A. Each principal must convene an annual meeting at a convenient time to which all parents of participating children are invited and encouraged to attend to explain the parents' rights to be involved and the school's obligations to develop a parental involvement plan.
- B. Meetings with parents of children receiving Title I services must be scheduled at flexible times with assistance such as child care, transportation, home visits, or similar aid offered to parents to encourage their involvement.
- C. Parents must be involved in an organized, on-going and timely way in the development, review, and improvement of parent involvement activities.
- D. Parents of participating students must be provided with:
 - 1. timely information about the Title I program and the school's parent involvement policy;
 - 2. a description and explanation of the curriculum in use at the school, the forms of academic assessment used to measure student progress, and the proficiency levels expected;
 - 3. regular meetings, upon request, for parents to make suggestions, and to participate as appropriate, in decisions relating to the education of their children, and receive responses regarding the parents' suggestions about their student's education as soon as

practicably possible.

- E. As a component of the school parental involvement policy, the principal for each school shall coordinate the development of a school-parent compact jointly with parents which outlines how the school staff, the parents, and the student will share responsibility for academic improvement and the means by which the school and parents will build and develop a partnership to help students achieve State standards. The compact must:
 - 1. describe the school's responsibility to provide a high quality curriculum and instruction in a supportive, effective learning environment;
 - 2. describe the parent's responsibility to support their child's learning environment such as monitoring attendance, homework, extra-curricular activities and excessive television watching; volunteering in the classroom; and participating, as appropriate, in decisions relating to the education of their children;
 - 3. address the importance of parent/teacher communication on an on-going basis through at least annual parent teacher conferences to discuss achievement and the compact; frequent progress reports to the parents on their child's progress; and reasonable access to the staff and to observe and participate in classroom activities.
- F. Parents of children receiving Title I services must be notified about school parent involvement policies in an understandable and uniform format, and to the extent practicable, in a language the parents can understand. These policies must also be made available to the community.
- G. School parent involvement policies must be evaluated periodically to consider whether they meet the changing needs of parents and the schools.

In order to involve parents in the education of their children and to support a partnership among the school, parents and the community for improving students achievement, the Superintendent and building principals must include provisions in the School District and school parent involvement policies regarding:

- A. assisting parents of children served under Title I in understanding the State's academic content and assessment standards, and in understanding how to monitor their child's progress and how to work with educators to improve their child's achievement;
- B. providing materials and training to help parents work with their children to improve achievement;
- C. educating teachers, pupil services personnel, and other staff, with the assistance of parents, about the value and utility of contributions of parents, how to reach out to, communicate with, and work with parents as equal partners, how to implement and coordinate parent programs, and how to build ties between parents and the school;
- D. to the extent feasible and appropriate, coordination and integration of parent involvement programs and activities with other Federal programs;
- E. providing such reasonable support for parent involvement activities as parents may request.

In order to build the School District's capacity for parent involvement, the Superintendent and building principals may also:

- A. involve parents in the development of training for teachers and administrators to improve the effectiveness of such training;
- B. pay reasonable and necessary expenses associated with parental involvement activities to enable parents to participate in school-related meetings and training sessions, including transportation and child care costs;

- C. train parents to enhance the involvement of other parents;
- D. adopt and implement model approaches to improving parental involvement;
- E. establish a District-wide parent advisory council to provide advice on all matters related to parental involvement programs;
- F. develop appropriate roles for community-based organizations and businesses in parental involvement activities.

TITLE I – PARENTS’ RIGHT TO KNOW

In accordance with the requirement of Federal law, for each school receiving Title I funds, the Superintendent shall make sure that all parents of students in that school are notified that they may request, and the Board will provide the following information on the student's classroom teachers:

- A. Whether the teacher(s) have met the State qualification and licensing criteria for the grade levels and subject areas they are teaching.
- B. Whether the teacher(s) is teaching under any emergency or provisional status in which the State requirements have been waived.
- C. The undergraduate major of the teacher(s) and the area of study and any certificates for any graduate degrees earned.
- D. The qualifications of any paraprofessionals providing services to their child(ren).
- E. In addition, the parents **shall** be provided:
 - 1. information on the level of achievement of their child(ren) on the required State academic assessments;
 - 2. timely notice if the student is assigned to a teacher who is not "highly qualified" as required, or if the student is taught for more than four (4) weeks by a teacher who is not highly qualified.

DIRECTORY INFORMATION

Each year the Superintendent shall provide public notice to students and their parents of the District's intent to make available, upon request, certain information known as "directory information." The Board designates as student "directory information": a student's name; address; telephone number; date and place of birth; major field of study; participation in officially-recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; date of graduation; or awards received.

Directory information shall not be provided to any organization for profit-making purposes.

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within thirty (30) days after receipt of the Superintendent's annual public notice.

In accordance with Federal and State law, the Board shall release the names, addresses, and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. A secondary school student or parent of

the student may request in writing that the student's name, address, and telephone listing not be released without prior consent of the parent(s)/eligible student. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces." The Superintendent is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory information," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the Superintendent shall appoint a person who has no conflicting interest to provide such written consent.

The Board may disclose "directory information," on former students without student or parental consent, unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

The Board shall not permit the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

DRUG PREVENTION

The Board of Education recognizes that the misuse of drugs is a serious problem with legal, physical, and social implications for the whole school community. As the educational institution of this community, the schools should strive to prevent drug abuse and help drug abusers by educational, rather than punitive, means.

For purposes of this policy, "drugs" shall mean:

- A. all dangerous controlled substances as so designated and prohibited by Ohio statute;
- B. all chemicals which release toxic vapors;
- C. all alcoholic beverages;
- D. any prescription or patent drug, except those for which permission to use in school has been granted pursuant to Board policy;
- E. anabolic steroids;
- F. any substance that is a "look-alike" to any of the above.

The Board prohibits the use, possession, concealment, or distribution of any drug or any drug-related paraphernalia as the term is defined by law, or the misuse of a product containing a substance that can provide an intoxicating or mood-altering effect on school grounds, on school vehicles, and at any school-sponsored event. It further establishes a drug-free zone within 1000 feet of any facility used by the District for educational purposes.

The Superintendent shall prepare guidelines for the identification, amelioration, and regulation of drug use in the schools. Such guidelines shall:

- A. emphasize the prevention of drug use;
- B. provide for a drug and alcohol education and prevention program, developmentally-based, age-appropriate, and comprehensive, which:
 - 1. addresses the legal, social, psychological, and health consequences of drug and alcohol use;
 - 2. provides information about effective techniques for resisting peer pressure to use illicit drugs and alcohol;
 - 3. assists students to develop skills to make responsible decisions about substance abuse and other important health issues;
 - 4. promotes positive emotional health, self-esteem, and respect for one's body;
 - 5. meets the minimal objectives as stated in the essential performance objectives for health education as established by the State Department of Education;
- C. include a statement to students that the use of illicit drugs and the unlawful possession and use of alcohol is wrong and harmful;
- D. provide standards of conduct that are applicable to all students and which clearly prohibit, at a minimum, the unlawful possession, use, or distribution of illicit drugs and alcohol by students on school premises or as a part of any school activity;
- E. include a clear statement that disciplinary sanctions, up to and including expulsion and referral for prosecution, will be imposed on students who violate the school standards of conduct and a description of those sanctions;

The sanctions may include, together with punitive action, voluntary referral to appropriate persons or agencies for screening and assessment. Such referral may only be made to qualified and properly licensed individuals or programs.

- F. provide information about any drug and alcohol counseling and rehabilitation and reentry programs available to students and provide procedures to direct students and their parents to the appropriate programs;
- G. require that all parents and students be given a copy of the standards of conduct regarding the unlawful possession, use, or distribution of illicit drugs and alcohol by students;

- H. require the notification to parents and students that compliance with the standards of conduct is mandatory;
- I. provide a biennial review of the School District's program to determine its effectiveness and implement changes as needed and to ensure that disciplinary sanctions are consistently enforced;
- J. establish means for dealing with students suspected of drug use or suspected of possessing or distributing drugs in school and ensure that the District's policy and administrative guidelines on Search and Seizure Policy [5771](#) and AG 5771, Suspension and Expulsion Policy [5610](#) and AG 5610, and Permanent Exclusion Policy 5610.01 and AG 5610.01 are complied with fully.

The Superintendent shall establish administrative guidelines necessary to implement this policy. Such guidelines shall ensure that the proper notice regarding the use of anabolic steroids is posted in each of the District's locker rooms used by students in grades 7-12.

R.C. 2925.37, 3313.60(E), 3313.661, 3313.662, 3313.752, 3313.95, 3319.012

DRUG-FREE WORKPLACE

PURPOSE

This policy is intended to ensure the health, safety and well being of all employees of Mad River Local Schools, in full compliance with the Drug-Free Workplace Act of 1988, by:

- A. establishing clear behavioral expectations for employees with regard to substance abuse;
- B. providing educational opportunities to inform employees of the hazards of substance abuse, and about how the potential for problem behavior related to usage can be reduced;
- C. maintaining an environment where the adverse effects of alcohol and drug abuse are minimized; and
- D. informing individual users about all Federal and State regulations regarding substance abuse.

POLICY

The following behavioral expectations of employees are intended to protect the health, safety and well being of all individuals associated with Mad River Local Schools:

- A. The manufacture, distribution, dispensation or sale of controlled substances (i.e., drugs and/or alcohol) is prohibited while employees are on Mad River Local Schools premises, engaged in Mad River Local Schools activities off premises, or during working hours, and will be grounds for termination of employment.
- B. The possession, use or being under the influence of controlled substances (i.e., drugs and/or

alcohol) is prohibited while employees are on Mad River Local Schools premises, engaged in Mad River Local School activities off premises, or during working hours.

- C. The use, possession, transport, selling or purchase of alcoholic beverages and drugs while engaged in activities on Mad River Local Schools premises or during a Mad River Local Schools sponsored function will be permitted if either of the following conditions exist:
 - 1. Use of the particular drug is permitted by law or has been authorized as a use for medicinal purposes. Adverse effects of prescribed medicines that necessitate use of sick leave will not be considered substance abuse.
 - 2. The activities or events are approved and/or sponsored by Mad River Local Schools and approval has been granted to serve alcoholic beverages.
- D. Employees convicted of violating any Federal, State, or local criminal drug statute, where the violation occurred on Mad River Local Schools premises, must report the conviction to the Director of Human Resources within five (5) working days of the conviction. Such convictions will result in the referral of an employee to a drug abuse assistance or rehabilitation program approved by a Federal, State or local health or law enforcement or other appropriate agency, and said employee's satisfactory participation in such a program. Rehabilitation expenses are to be borne by the employee, except as may be covered by group health insurance.
- E. In circumstances where the employee in question has been previously referred for rehabilitation in lieu of discipline, the option to participate in rehabilitation may not be available.
- F. At any Mad River Local Schools sponsored event where alcoholic beverages are served, non-alcoholic beverages must also be served and the drinking of alcoholic beverages must not be the focus of the event.
- G. The serving of alcoholic beverages at Mad River Local Schools events must, at all times, conform to State and local laws as well as policies established by Mad River Local Schools.

Violations of this policy (Sections A-G) will result in appropriate disciplinary measures being taken, which may include termination.

PREVENTION

Employees are encouraged to obtain drug abuse education or prevention information available on a voluntary, non-threatening, and confidential basis that will not jeopardize an individual's status as an employee.

There will be available for all Mad River Local Schools employees at least one (1) educational opportunity per year to inform employees about the hazards of substance abuse, rehabilitation options and Mad River Local Schools' policies on substance abuse. Such may take the form of in-services, seminars, meetings or similar functions.

INTERVENTION

An employee who voluntarily seeks assistance for a substance abuse problem will not be terminated or otherwise disciplined solely for such action.

Mad River Local Schools supports employees' intentions to obtain assistance for problems related to substance abuse in the following ways:

- A. Discussions between Mad River Local Schools representatives and all employees experiencing substance abuse problems will be strictly confidential.

- B. Sick leave days or personal leave days (Mad River School Employees) may be utilized to pursue substance abuse rehabilitation. In addition, the employee may apply for unpaid leave to pursue substance abuse rehabilitation.
- C. The Director of Human Resources will maintain and make available to employees and the employees' organizations information on employee benefits available to assist in resolving substance abuse problems as well as information on community resources for addressing such problems.

STUDENT/PARENT RIGHTS

The Board of Education recognizes that students possess not only the right to an education but many of the rights of citizenship as well.

In providing students the opportunity for an education to which they are entitled, the Board shall attempt to offer nurture, counsel, and custodial care appropriate to their age and maturity. At the same time, the Board recognizes that no student may be deprived of the basic right to equal access to the educational program, and his/her constitutional right to due process and free expression and association as appropriate for the school environment.

Attendant to the rights afforded to each student, however, are certain responsibilities, which include respect for the rights of others, obedience to properly constituted school authority, and compliance with the guidelines and rules of the District.

Since a student who has reached the age of majority possesses the full rights of an adult, s/he may authorize those school matters previously handled by his/her parents, but s/he also assumes the responsibility for his/her performance in school, attendance, and compliance with school rules.

Parents also have rights in the school system to know about their student's educational experience. Specific rights are listed in topic areas of these policies.

In addition, parents have the right to inspect any instructional materials used as part of the educational curriculum for their student. Instructional materials means instructional content, regardless of format, that is provided to the student, including printed or representational materials, audio-visual materials, and materials available in electronic or digital formats (such as materials accessible through the Internet). Instructional material does not include academic tests or academic assessments.

The Superintendent shall, in consultation with parents, develop a procedure addressing the right of parents as described herein and procedures to assure timely response to parental requests to review instructional material. The procedure shall also address reasonable notification to parents and students of their rights to review these materials. See AG 9130A and Form 9130 F3.

This policy shall not supercede any rights under the Family Education Rights and Privacy Act.

PUBLIC RECORDS

The Board of Education is responsible for maintaining the public records of this District and to make such records available to residents of Ohio for inspection and reproduction.

The Board will utilize the following procedures regarding the availability of public records. "Public records" are defined as any document, device, or item, regardless of physical form or characteristic, including an electronic record created or received by or coming under the jurisdiction of the Board or its employees, which serves to document the organization, functions, policies, decisions, procedures, operations, or

other activities of the District. "Electronic record" is defined as a record created, generated, sent, communicated, received, or stored by electronic means. "Public records" do not include medical records, documents containing genetic information, trial preparation records, confidential law enforcement investigatory records, records the release of which is prohibited by State or Federal law, and any other exceptions set forth in R.C. 149.43. Confidential law enforcement investigatory records, medical records, and trial preparation records are as defined in R.C. 149.43.

The District's public records shall be organized and maintained so that they are readily available for inspection and copying. As such, public records will be available for inspection during regular business hours, with the exception of published holidays. The District's public records shall be promptly prepared and made available for inspection. A reasonable period of time may be necessary due to the volume of records requested, the proximity of the location where the records are stored, and/or for the District to review and redact non-public/confidential information contained in the record. Upon request, a person may receive copies of public records, at cost, within a reasonable period of time.

Each request for public records shall be evaluated for a response at the time it is made. Although no specific language is required to make a request, the requester must minimally identify the record(s) requested with sufficient clarity to allow the District to identify, retrieve, and review the record(s). If a requestor makes an ambiguous or overly broad request or has difficulty in making a request for inspection or copies of public records such that the District's Record Officer cannot reasonably identify what public records are being requested, the District Record Officer or designee may deny the request but shall provide the requestor with an opportunity to revise the request by informing the requestor of the manner in which records are maintained by the District and accessed in the ordinary course of business. The request for records shall need not be in writing. The requestor shall not be required to provide his/her identity or the intended use of the requested public record(s).

At the time of the request, the records custodian shall inform the person making the request of the estimated length of time required to gather the records. All requests for public records shall be satisfied or acknowledged by the District promptly following the receipt of the request. If the request for records was in writing, the acknowledgement by the District shall also be in writing.

Any request deemed significantly beyond routine, such as seeking a voluminous number of copies and/or records, or requiring extensive research, the acknowledgement shall include the following:

- A. an estimated number of business days necessary to satisfy the request
- B. an estimated cost if copies are requested
- C. any items within the request that may be exempt from disclosure

The Superintendent is authorized to grant or refuse access to the records of this District in accordance with the law. Any denial, in whole or in part, of a public records request must include an explanation, including legal authority. If portions of a record are public and portions are exempt, the exempt portions are to be redacted and the rest released. If there are redactions, the requester must be notified of the redaction and/or the redaction must be plainly visible, and each redaction must be accompanied by a supporting explanation, including legal authority. If the request for records was in writing, the explanation shall also be in writing.

A person may obtain copies of the District's public records upon payment of a fee. A person who requests a copy of a public record may request to have said record duplicated on paper, on the same medium on which the District keeps the record, or on any other medium in which the custodian of records determines

that said record reasonably can be duplicated as an integral part of normal operations. A person who requests a copy of a public record may choose to have that record sent to him/her by United States mail or by other means of delivery or transmission provided the person making the request pays in advance for said record as well as the costs for postage and the mailing supplies.

The number of records requested by a person that the District will transmit by U.S. mail shall be limited to ten (10) per month, unless the person certifies, in writing to the District, that the person does not intend to use or forward the requested records, or the information contained in them, for commercial purposes. "Commercial" shall be narrowly defined and does not include reporting or gathering news, reporting gathering information to assist citizen oversight or understanding of the operation or activities of the District, or nonprofit educational research. (R.C. 149.43(B)(7))

Those seeking public records will be charged only the actual cost of making copies.

The charge for paper copies is ten cents (\$.10) per page.

Documents in electronic mail format are records as defined by the Ohio revised code when their content relates to the business of the District (i.e., they serve to document the organization, functions, policies, decisions, procedures, operations, or other activities of the District). E-mail shall be treated in the same fashion as records in other formats and shall follow the same retention schedule.

Records in private e-mail accounts are subject to disclosure if their content relates to public business, and all employees or representatives of the District are responsible for retaining e-mails that meet the definition of public records and copying them to their District e-mail account(s) and/or to the records custodian.

The records custodian shall treat such e-mail/records from private accounts as records of the District. These records shall be filed appropriately, retained in accordance with the established schedules, and made available for inspection and copying in accordance with the Public Records Act.

Private e-mail, electronic documents, and documents ("private records") that do not serve to document the District's organization, functions, policies, decisions, procedures, operations or other activities are not public records. Although private records do not fall under Policy [8310](#) or AG 8310A, they may fall under Policy [8315](#) – "Information Management" and/or AG 8315 – "Litigation Hold Procedure".

No public record may be removed from the office in which it is maintained except by a Board officer or employee in the course of the performance of his/her duties.

Nothing in this policy shall be construed as preventing a Board member, in the performance of his/her official duties, from inspecting any record of this District, except student records and certain confidential portions of personnel records.

A School District Records Commission shall be established consisting of the Board President, Treasurer, and Superintendent of Schools in accordance with law to judge the advisability of destroying District records. Record retention schedules shall be updated regularly and posted prominently. The Commission shall meet at least once every twelve (12) months.

The Superintendent shall provide for the inspection, reproduction, and release of public records in accordance with this policy and with the Public Records Law. Administrative guidelines shall be developed to provide guidance to District employees in responding to public records requests. The Superintendent shall require the posting and distribution of this policy in accordance with statute.

BULLYING AND OTHER FORMS OF AGGRESSIVE BEHAVIOR

The Board of Education is committed to providing a safe, positive, productive, and nurturing educational environment for all of its students. The Board encourages the promotion of positive interpersonal relations between members of the school community.

Harassment, intimidation, or bullying toward a student, whether by other students, staff, or third parties is strictly prohibited and will not be tolerated. This prohibition includes aggressive behavior, physical, verbal, and psychological abuse. The Board of Education will not tolerate any gestures, comments, threats, or actions which cause or threaten to cause bodily harm or personal degradation. This policy applies to all activities in the District, including activities on school property or while enroute to or from school, and those occurring off school property if the student or employee is at any school-sponsored, school-approved or school-related activity or function, such as field trips or athletic events where students are under the school's control, in a school vehicle, or where an employee is engaged in school business.

This policy has been developed in consultation with parents, District employees, volunteers, students, and community members as prescribed in R.C. 3313.666 and the State Board of Education's Model Policy.

Harassment, intimidation, or bullying means any intentional written, verbal, graphic, or physical act that a student or group of students exhibits toward another particular student(s) more than once and the behavior both causes mental or physical harm to the other student(s) and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s). Aggressive behavior is defined as inappropriate conduct that is repeated enough, or serious enough, to negatively impact a student's educational, physical, or emotional well being. This type of behavior is a form of intimidation and harassment, although it need not be based on any of the legally protected characteristics, such as sex, race, color, national origin, marital status, or disability. It would include, but not be limited to, such behaviors as stalking, bullying/cyberbullying, intimidating, menacing, coercion, name-calling, taunting, making threats, and hazing.

Harassment, intimidation, or bullying also means electronically transmitted acts (i.e., internet, e-mail, cellular telephone, personal digital assistance (PDA), or wireless hand-held device) that a student(s) or a group of students exhibits toward another particular student(s) more than once and the behavior both causes mental and physical harm to the other student and is sufficiently severe, persistent, or pervasive that it creates an intimidating, threatening, or abusive educational environment for the other student(s).

Any student or student's parent/guardian who believes s/he has been or is the victim of aggressive behavior should immediately report the situation to the building principal or assistant principal, or the Superintendent. The student may also report concerns to teachers and other school staff who will be responsible for notifying the appropriate administrator or Board official. Complaints against the building principal should be filed with the Superintendent. Complaints against the Superintendent should be filed with the Board President.

Every student is encouraged, and every staff member is required, to report any situation that they believe to be aggressive behavior directed toward a student. Reports may be made to those identified above.

All complaints about aggressive behavior that may violate this policy shall be promptly investigated. The building principal or appropriate administrator shall prepare a written report of the investigation upon completion. Such report shall include findings of fact, a determination of whether acts of harassment, intimidation, and/or bullying were verified, and, when prohibited acts are verified, a recommendation for intervention, including disciplinary action shall be included in the report. Where appropriate, written witness statements shall be attached to the report.

If the investigation finds an instance of harassment, intimidation, and/or bullying has occurred, it will result in prompt and appropriate remedial and/or disciplinary action. This may include up to expulsion for students, up to discharge for employees, exclusion for parents, guests, volunteers, and contractors, and

removal from any official position and/or a request to resign for Board members. Individuals may also be referred to law enforcement officials.

Retaliation against any person who reports, is thought to have reported, files a complaint, or otherwise participates in an investigation or inquiry concerning allegations of aggressive behavior is prohibited and will not be tolerated. Such retaliation shall be considered a serious violation of Board policy and independent of whether a complaint is substantiated. Suspected retaliation should be reported in the same manner as aggressive behavior. Making intentionally false reports about aggressive behavior for the purpose of getting someone in trouble is similarly prohibited and will not be tolerated. Retaliation and intentionally false reports may result in disciplinary action as indicated above.

If a student or other individual believes there has been aggressive behavior, regardless of whether it fits a particular definition, s/he should report it and allow the administration to determine the appropriate course of action.

This policy shall not be interpreted to infringe upon the First Amendment rights of students (i.e., to prohibit a reasoned and civil exchange of opinions, or debate, that is conducted at appropriate times and places during the school day and is protected by State or Federal law).

The complainant shall be notified of the findings of the investigation, and as appropriate, that remedial action has been taken. If after investigation, acts of bullying against a specific student are verified, the building principal or appropriate administrator shall notify the parent/guardian of the victim of such finding. In providing such notification care shall be taken to respect the statutory privacy rights of the perpetrator of such harassment, intimidation, and/or bullying.

If after investigation, acts of harassment, intimidation, and/or bullying by a specific student are verified, the building principal or appropriate administrator shall notify in writing the parent/guardian of the perpetrator of that finding. If disciplinary consequences are imposed against such student, a description of such discipline shall be included in the notification.

Complaints

Students and/or their parents/guardians may file reports regarding suspected harassment, intimidation, or bullying. Such reports shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. Such reports may be filed with any school staff member or administrator, and they shall be promptly forwarded to the building principal for review, investigation, and action.

Students, parents/guardians, and school personnel may make informal complaints of conduct that they consider to be harassment, intimidation, and/or bullying by verbal report to a teacher, school administrator, or other school personnel. Such informal complaints shall be reasonably specific including person(s) involved, number of times and places of the alleged conduct, the target of suspected harassment, intimidation, and/or bullying, and the names of any potential student or staff witnesses. A school staff member or administrator who receives an informal complaint shall promptly document the complaint in writing, including the information provided. This written report shall be promptly forwarded by the school staff member and/or administrator to the building principal for review, investigation, and appropriate action.

Students who make informal complaints as provided above may request that their name be maintained in confidence by the school staff member(s) and administrator(s) who receive the complaint. Anonymous complaints shall be reviewed and reasonable action shall be taken to address the situation, to the extent such action may be taken that (1) does not disclose the source of the complaint, and (2) is consistent with

the due process rights of the student(s) alleged to have committed acts of harassment, intimidation, and/or bullying.

When a student making an informal complaint has requested anonymity, the investigation of such complaint shall be limited as is appropriate in view of the anonymity of the complaint. Such limitation of investigation may include restricting action to a simple review of the complaint subject to receipt of further information and/or the withdrawal by the complaining student of the condition that his/her report be anonymous.

Privacy/Confidentiality

The School District will respect the privacy of the complainant, the individual(s) against who the complaint is filed, and the witnesses as much as possible, consistent with the Board's legal obligations to investigate, to take appropriate action, and to conform with any discovery or disclosure obligations. All records generated under this policy and its related administrative guidelines shall be maintained as confidential to the extent permitted by law.

Reporting Requirement

At least semi-annually, the Superintendent shall provide to the President of the Board a written summary of all reported incidents and post the summary on the District web site (if one exists). The list shall be limited to the number of verified acts of harassment, intimidation, and/or bullying, whether in the classroom, on school property, to and from school, or at school-sponsored events.

Allegations of criminal misconduct and suspected child abuse will be reported to the appropriate law enforcement agency and/or to Child Protective Services in accordance with statute. District personnel shall cooperate with investigations by such agencies.

Immunity

A School District employee, student, or volunteer shall be individually immune from liability in a civil action for damages arising from reporting an incident in accordance with this policy and R.C. 3313.666 if that person reports an incident of harassment, intimidation, and/or bullying promptly, in good faith, and in compliance with the procedures specified in this policy. Such immunity from liability shall not apply to an employee, student, or volunteer determined to have made an intentionally false report about harassment, intimidation, and/or bullying.

Notification

Notice of this policy will be **annually** circulated to and posted in conspicuous locations in all school buildings and departments within the District and discussed with students, as well as incorporated into the teacher, student, and parent/guardian handbooks. State and Federal rights posters on discrimination and harassment shall also be posted at each building. All new hires will be required to review and sign off on this policy and the related complaint procedure.

Education and Training

In support of this policy, the Board promotes preventative educational measures to create greater awareness of aggressive behavior, including bullying. The Superintendent or designee shall provide appropriate training to all members of the School District community related to the implementation of this policy and its accompanying administrative guidelines. All training regarding the Board's policy and

administrative guidelines and aggressive behavior and bullying in general, will be age and content appropriate.

The Superintendent is directed to develop administrative guidelines to implement this policy. Guidelines shall include reporting and investigative procedures, as needed. The complaint procedure established by the Superintendent shall be followed.

PERMANENT EXCLUSION OF NONDISABLED STUDENTS

In accordance with the law, the Board of Education may seek to permanently exclude a student, sixteen (16) years of age or older, who has been convicted of or adjudicated delinquent for the reason of the following offenses:

- A. carrying a concealed weapon or conveying or possessing a deadly weapon or dangerous ordnance on property owned or controlled by a board of education or at an activity held under the auspices of this Board
- B. possessing, selling, or offering to sell controlled substances on property owned or controlled by a board of education or at an activity under the auspices of this Board
- C. complicity to commit any of the above offenses, regardless of where the complicity occurred

In accordance with law, any student, sixteen (16) years of age or older, who has been convicted or adjudicated delinquent for committing the following offenses may be subject to permanent exclusion:

- A. rape, gross sexual imposition or felonious sexual penetration
- B. murder, manslaughter, felonious or aggravated assault
- C. complicity to commit offenses described in paragraphs A and B, regardless of where the complicity occurs

The above statement of policy on permanent exclusion is to be posted in a central location in each school as well as made available to students, upon request.

If the Superintendent has adequate evidence that a student, sixteen (16) years old or older at the time of the offense, has been convicted of or is an adjudicated delinquent resulting from any of the above offenses, s/he shall submit a written recommendation to the Board that the student should be permanently excluded from the public schools by the State Superintendent of Public Instruction. The recommendation is to be accompanied by the evidence, other information required by statute, and the name and position of the person who should present the District's case to the State Superintendent. The Board, after considering all the evidence, including the hearing of witnesses, shall take action within fourteen (14) days after receipt of the Superintendent's recommendation.

If the Board adopts the resolution, the Superintendent shall submit it to the State Superintendent, together with the required documents and the name of the person designated by the Board as its representative to present the case to the State Superintendent. A copy of the resolution shall be sent to both the student and his/her parents.

If the Board fails to pass the resolution, it shall so notify the Superintendent, in writing, who, in turn, shall provide written notification of the Board's action to both the student and his/her parents.

If the State Superintendent rejects the Board's request, the District Superintendent shall readmit the student in accordance with statute and District guidelines.

If the State Superintendent acts on the Board's request, his/her actions and those of the District shall be in accord with the procedures described in statute.

SUSPENSION OF BUS RIDING/TRANSPORTATION PRIVILEGES

Students on a bus or other authorized Board of Education transportation vehicles are under the authority of and directly responsible to the bus/vehicle driver. The driver has the authority to enforce the established regulations for bus/vehicle conduct. Disorderly conduct or refusal to submit to the authority of the driver will be sufficient reason for refusing transportation service to any student.

A student may be suspended from school bus/vehicle riding privileges for all or part of a school year for any violation of established regulations for bus conduct and/or for conduct occurring on the bus/vehicle in violation of the Student Code of Conduct/Student Discipline Code.

Before a suspension from bus/vehicle riding privileges is imposed, the Superintendent or other designated District personnel will provide a student with notice of an intended suspension and an opportunity to appear before the Superintendent or other designated District personnel. Disciplinary suspension periods will be commensurate with the infraction(s) committed as determined by the Superintendent or designated District personnel.

Any additional guidelines regarding conduct on school buses/vehicles, as well as general information about the school transportation program, will be made available to all parents and students and posted in a central location.

PROHIBITION FROM EXTRA-CURRICULAR ACTIVITIES

Participation in extra-curricular activities, including interscholastic sports, is a privilege and not a right. Therefore, the Board of Education authorizes the Superintendent, principals, and assistant principals and other authorized personnel employed by the District to supervise or coach a student activity program, to prohibit a student from participating in any particular or all extra-curricular activities of the District for offenses or violations of the Student Code of Conduct/Student Discipline Code for a period not to exceed the remainder of the school year in which the offense or violation of the Student Code of Conduct/Student Discipline Code took place. In addition, student athletes are further subject to the Athletic Code of Conduct and may be prohibited from participating in all or part of any interscholastic sport for violations therein.

Students prohibited from participation in all or part of any extra-curricular activity are not entitled to further notice, hearing, or appeal rights.

This policy shall be posted in a central location in each school building and will be available to students upon request.

DUE PROCESS RIGHTS

The Board of Education recognizes that students waive certain constitutional rights, regarding their education.

Accordingly, the Board establishes the following procedures:

A. **Student subject to suspension:**

When a student is being considered for an out-of-school suspension by the Superintendent, principal, or other administrator:

1. The student will be informed in writing of the potential suspension and the reasons for the proposed action.
2. The student will be provided an opportunity for an informal hearing to challenge the reason for the intended suspension and to explain his/her actions.
3. An attempt will be made to notify parents or guardians by telephone if a suspension is issued.
4. Within one (1) school day of the suspension the Superintendent, principal, or other administrator will notify the parents, guardians, or custodians of the student and the Treasurer of the Board. The notice will include the reasons for the suspension and the right of the student, parent, guardian, or custodian to appeal to the Board or its designee; the right to be represented at the appeal; and the right to request the hearing be held in executive session if before the Board. The notice shall also specify that if the student, parent, guardian, or custodian intends to appeal the suspension to the Board or its designee, such notice of appeal shall be filed, in writing, with the Treasurer of the Board or the Superintendent within five (5) calendar days after the date of the notice to suspend. If the offense is one for which the District may seek permanent exclusion, then the notice will contain that information.
5. Notice of this suspension will also be sent to the:
 - a. Superintendent/Director of Student Services;
 - b. Board Treasurer;
 - c. student's school record (not for inclusion in the permanent record).
6. If a student leaves school property without permission immediately upon violation (or suspected violation) of a provision of the Student Code of Conduct/Student Discipline Code or prior to an administrator conducting an informal hearing as specified above, and the student fails to return to school on the following school day, the principal, assistant principal, Superintendent, or

any other administrator, may send the student and his/her parent(s)/guardian(s) notice of the suspension, and offer to provide the student and/or his/her parents an informal hearing upon request to discuss the reasons for the suspension and to allow the student to challenge the reasons and to explain his/her actions, any time prior to the end of the suspension period.

Appeal of Suspension to the Board or its designee

The student who is eighteen (18) or older or the student's parent(s) or guardian(s) may appeal the suspension to the Board or its designee. They may be represented in all such appeal proceedings.

A verbatim record will be kept of the hearing which may be held in executive session at the request of the student, parent, or guardian, if held before the Board.

The procedure to pursue such appeal will be provided in regulations approved by the Superintendent. Notice of appeal must be filed, in writing, with the Treasurer or the Superintendent within five (5) calendar days after the date of the notice to suspend.

Appeal to the Court

Under Ohio law, appeal of the Board's or its designee's decision may be made to the Court of Common Pleas.

B. Students subject to expulsion:

When a student is being considered for expulsion by the Superintendent:

1. The Superintendent will give the student and parent, guardian, or custodian written notice of the intended expulsion, including reasons for the intended expulsion.
2. The student and parent or representative have the opportunity to appear before the Superintendent or designee to challenge the proposed action or to otherwise explain the student's actions. The written notice will state the time and place to appear, which must not be earlier than three (3) school days nor later than five (5) school days after the notice is given, unless the Superintendent grants an extension upon request of the student or parent.
3. Within one (1) school day of the expulsion, the Superintendent

will notify the parents, guardians, or custodians of the student and Treasurer of the Board. The notice will include the reasons for the expulsion and the right of the student, parent, guardian, or custodian to appeal to the Board or its designee; the right to be represented at the appeal; and the right to request the hearing be held in executive session if before the Board. The notice shall also specify that if the student, parent, guardian, or custodian intends to appeal the expulsion to the Board or its designee, such notice of appeal shall be filed, in writing, with the Treasurer of the Board or the Superintendent within fourteen (14) calendar days after the date of the notice of expulsion. If the offense is one for which the District may seek permanent exclusion, then the notice will contain that information.

Appeal of Expulsion to the Board

A student who is eighteen (18) or older or a student's parent(s) or guardian(s) may appeal the expulsion by the Superintendent to the Board or its designee. They may be represented in all such appeal proceedings and will be granted a hearing before the Board or its designee.

A verbatim record will be kept of the hearing which may be held in executive session at the request of the student, parent, or guardian.

The procedure to pursue such appeal will be in accordance with regulations approved by the Superintendent. Notice of appeal must be filed, in writing, within fourteen (14) calendar days after the date of the Superintendent's decision to expel with the Treasurer of the Board or the Superintendent.

While a hearing before the Board may occur in executive session, the Board must act in public.

Appeal to the Court

Under State law, the decision of the Board may be further appealed to the Court of Common Pleas.

C. Students subject to emergency removal:

Students whose conduct warrants emergency removal shall be dealt with in accordance with the rights and procedures outlined in Policy 5610.03 – Emergency Removal.

D. Students subject to permanent exclusion:

Students whose conduct is that for which permanent exclusion is warranted shall be dealt with in accordance with the rights and procedures outlined in Policy 5610.01 – Permanent Exclusion of Nondisabled Students.

E. Students subject to suspension from bus riding/transportation privileges:

Students whose conduct warrants suspension from bus riding and/or transportation services shall be dealt with in accordance with the rights and procedures outlined in Policy 5610.04 - Suspension of Bus Riding/Transportation Privileges.

The Superintendent shall ensure that all members of the staff use the above procedures when dealing with students. In addition, this statement of due process rights is to be placed in all student handbooks in a manner that will facilitate understanding by students and their parents.

These procedures shall not apply to in-school disciplinary alternatives including in-school suspensions. An in-school suspension is one served entirely within a school setting. Nor shall these disciplinary alternative procedures apply to students who are prohibited by authorized school personnel from all or part of their participation in co-curricular, interscholastic, and/or noninterscholastic extra-curricular activities.

SEARCH AND SEIZURE

The Board of Education recognizes that the privacy of students or their belongings may not be violated by unreasonable search and seizure and directs that no student be searched without reasonable suspicion or in an unreasonable manner.

The Board acknowledges the need for in-school storage of student possessions and shall provide storage places, including desks and lockers, for that purpose. Such spaces remain the property of the Board and, in accordance with law, may be the subject of random search. Where locks are provided for such places, students may lock them against incursion by other students, but in no such places shall students have such an expectation of privacy as to prevent examination by a school official. The Board directs the school principals to conduct a routine inspection at least annually of all such storage places.

School authorities are charged with the responsibility of safeguarding the safety and well-being of the students in their care. In the discharge of that responsibility, school authorities may search the person or property, including vehicles, of a student, with or without the student's consent, whenever they reasonably suspect that the search is required to discover evidence of a violation of law or of school rules. The extent of the search will be governed by the seriousness of the alleged infraction and the student's age.

This authorization to search shall also apply to all situations in which the student is under the jurisdiction of the Board.

Administrators are permitted to conduct a random search of any student's locker and its contents at any time, providing proper notice has been posted in the locker areas of each building.

Search of a student's person or intimate personal belongings shall be conducted by a person of the student's gender, in the presence of another staff member of the same gender, and only in exceptional circumstances when the health or safety of the student or of others is immediately threatened.

Administrators are authorized to arrange for the use of a breath-test instrument for the purpose of determining if a student has consumed an alcoholic beverage. It is not necessary for the test to determine blood-alcohol level, since the Board has established a zero tolerance for alcohol use.

The Board also authorizes the use of canines, trained in detecting the presence of drugs or devices, when the Superintendent has reasonable suspicion that illegal drugs or devices may be present in a school. This means of detection shall be used only to determine the presence of drugs in locker areas and other places on school property where such substances could be concealed. Canine detection must be conducted in collaboration with law enforcement authorities or with organizations certified in canine detection and is not to be used to search individual students unless a warrant has been obtained prior to the search.

Except as provided below, a request for the search of a student or a student's possessions will be directed to the principal who shall seek the freely offered consent of the student to the inspection. Whenever possible, a search will be conducted by the principal in the presence of the student and a staff member other than the principal. A search prompted by the reasonable belief that health and safety are immediately threatened will be conducted with as much speed and dispatch as may be required to protect persons and property.

The principal shall be responsible for the prompt recording in writing of each student search, including the reasons for the search; information received that established the need for the search and the name of informant, if any; the persons present when the search was conducted; any substances or objects found; and the disposition made of them. The principal shall be responsible for the custody, control, and disposition of any illegal or dangerous substance or object taken from a student.

The Superintendent shall prepare administrative guidelines to implement this policy.

STUDENT RECORDS

In order to provide appropriate educational services and programming, the Board of Education must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Student "personally identifiable information" includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively-based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" refers to a student who is eighteen (18) years of age or older, or a student of any age who is enrolled in a postsecondary institution.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of eligible students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the Board; a person or company with whom the Board has contracted to perform a special task (such as an attorney, auditor, or medical consultant); a contractor, consultant, volunteer or other party to whom the Board has outsourced a service otherwise performed by Board employees (e.g. a therapist); or a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks.

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 - 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification - Form 8330 F9 - includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);
 - 2. the parent or eligible student, upon request, receives a copy of the record; and
 - 3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record;
- B. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
- C. report a crime committed by a child with a disability to appropriate authorities and to transmit copies of the student's special education and disciplinary records to the authorities for their

consideration;

- D. release de-identified records and information in accordance with Federal regulations;
- E. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for, or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;

Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study. (See Form 8330 F14.) While the disclosure of personally identifiable information without consent is allowed under this exception, it is recommended that whenever possible the administration either release de-identified information or remove the students' names and social security identification numbers to reduce the risk of unauthorized disclosure of personally identifiable information.

- F. request each person or party requesting access to a student's record to abide by Federal regulations and State laws concerning the disclosure of information.

The Board will comply with a legitimate request for access to a student's records within a reasonable period of time but not more than forty-five (45) days after receiving the request or within such shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced, unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. Such disclosure records will indicate the student, person viewing the record, their legitimate interest in the information, information disclosed, date of disclosure, and date parental/eligible student consent was obtained (if required).

Only "directory information" regarding a student shall be released to any person or party, other than the student or his/her parent, without the written consent of the parent, or, if the student is an eligible student, without the written consent of the student, except to those persons or parties stipulated by the Board's policy and administrative guidelines and/or those specified in the law.

DIRECTORY INFORMATION

Each year the Superintendent shall provide public notice to students and their parents of the District's intent to make available, upon request, certain information known as "directory information." The Board designates as student "directory information": a student's name; address; telephone number; date and place of birth; major field of study; participation in officially-recognized activities and sports; height and weight, if a member of an athletic team; dates of attendance; date of graduation; or awards received.

Directory information shall not be provided to any organization for profit-making purposes.

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within thirty (30) days after receipt of the Superintendent's annual public notice.

In accordance with Federal and State law, the Board shall release the names, addresses, and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or

an institution of higher education who requests such information. A secondary school student or parent of the student may request in writing that the student's name, address, and telephone listing not be released without prior consent of the parent(s)/eligible student. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces." The Superintendent is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory information," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the Superintendent shall appoint a person who has no conflicting interest to provide such written consent.

The Board may disclose "directory information," on former students without student or parental consent, unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

The Board shall not permit the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

INSPECTION OF INFORMATION COLLECTION INSTRUMENT

The parent of a student or an eligible student has the right to inspect upon request any instrument used in the collection of personal information before the instrument is administered or distributed to a student. Personal information for this section is defined as individually identifiable information including a student or parent's first and last name, a home or other physical address (including street name and the name of the city or town), or a telephone number. In order to review the instrument, the parent or eligible student must submit a written request to the building principal at least seven (7) business days before the scheduled date of the activity. The instrument will be provided to the parent or eligible student within three (3) business days of the principal receiving the request.

The Superintendent shall directly notify the parent(s) of a student and eligible students, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

This section does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- A. college or other postsecondary education recruitment, or military recruitment
- B. book clubs, magazine, and programs providing access to low-cost literary products
- C. curriculum and instructional materials used by elementary and secondary schools
- D. tests and assessments used by elementary and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments
- E. the sale by students of products or services to raise funds for school-related or education-related activities

F. student recognition programs

The Superintendent is directed to prepare administrative guidelines so that students and parents are adequately informed each year regarding their rights to:

- A. inspect and review the student's education records;
- B. request amendments if the parent believes the record is inaccurate, misleading, or violates the student's privacy rights;
- C. consent to disclosures of personally-identifiable information contained in the student's education records, except to those disclosures allowed by the law;
- D. challenge Board noncompliance with a parent's request to amend the records through a hearing;
- E. file a complaint with the United States Department of Education;
- F. obtain a copy of the Board's policy and administrative guidelines on student records.

The Superintendent shall also develop procedural guidelines for:

- A. the proper storage and retention of records including a list of the type and location of records;
- B. informing Board employees of the Federal and State laws concerning student records.

The Board authorizes the use of the microfilm process or electromagnetic processes of reproduction for the recording, filing, maintaining, and preserving of records.

No liability shall attach to any member, officer, or employee of this Board as a consequence of permitting access or furnishing student records in accordance with this policy and regulations

STUDENT ACCIDENT INSURANCE

The Board of Education recognizes the need for insurance coverage for injuries to students caused by accidents occurring in the course of attendance at school and participation in the athletic and co-curricular programs of the schools. Therefore, at the beginning of each school year, the Board shall offer parents the opportunity to participate in group accident insurance at the expense of the parents.

A signed statement of insurance coverage on the part of the student's parent or guardian shall be a prerequisite for student registration in any school activity having a potential for personal injury.

The Superintendent shall recommend suitable and qualified insurance carriers and notify all parents of its availability.

CONTROL OF BLOOD-BORNE PATHOGENS

The Board of Education seeks to protect those staff members who may be exposed to blood-borne pathogens and other potentially-infectious materials in their performance of assigned duties.

The Superintendent shall implement administrative guidelines which will:

- A. identify those categories of employees whose duties create a reasonable anticipation of exposure to blood and other infectious materials;
- B. provide for inoculation of the Hepatitis B vaccine at no cost to the staff member and in accordance with Federally-mandated scheduling;
- C. ensure proper training in the standard precautions against exposure and/or contamination including the provision of appropriate protective supplies and equipment;
- D. establish appropriate procedures for the reporting, evaluation, and follow-up to any and all incidents of exposure;
- E. provide for record-keeping of all of the above which complies with both Federal and State laws;
- F. develop an exposure control plan.
